Santander (Spain)

INTERNATIONAL
SYMPOSIUM ON *Rare*
LIVER DISEASES

Dear Colleagues,

It is both an honor and a pleasure for us to extend a warm welcome to the "I International Symposium on Rare Liver Diseases". This event, scheduled to be held in the city of Santander on the 11th and 12th of April, represents a unique opportunity to bring together the scientific and medical community around a common challenge: to advance our understanding and treatment of rare liver diseases.

We anticipate that this symposium will mark a significant milestone in the enhancement of knowledge and treatment of rare liver diseases, as it convenes leading experts in the field of orphan liver diseases from across the globe. Our aim is to share the latest advancements, experiences, and challenges in the diagnosis, treatment, and management of these complex conditions.

Over the course of these two days, you will have the opportunity to engage in a diverse array of sessions that include keynote lectures and highly interactive panel discussions. We trust that the scientific program will be of interest to you and will enrich your professional and academic practice.

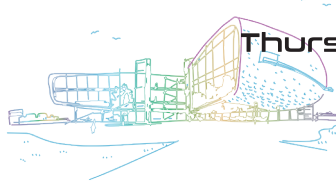

In addition to the academic agenda, we hope that you will enjoy the hospitality of Santander, a city that melds natural beauty, historical richness, and a vibrant cultural life. We encourage you to explore its landscapes, gastronomy, and to engage with its people.

We wish to express our gratitude to all participants, speakers, sponsors, and organizers for their dedication and effort in making this event a success. Your commitment to advancing knowledge in the field of rare liver diseases is vital for the improvement of patient quality of life worldwide.

We hope that this symposium will serve not only as a platform for the dissemination of scientific knowledge but also as a venue for fostering collaboration and networking among professionals dedicated to this important cause.

Welcome to Santander and to the "I International Symposium on Rare Liver Diseases". Together, let us progress towards a future where rare liver diseases can be understood, treated, and, hopefully, cured.

Sincerely, Javier Crespo & José Luis Calleja

11.30 - 12.00

Opening ceremony

Javier Crespo (Santander, Spain)

José Luis Calleja (Madrid, Spain)

César Pascual (Consejero de Sanidad del Gobierno de Cantabria)

María José Sáenz de Buruaga Gómez (Presidenta de la
Comunidad Autónoma de Cantabria)

12.00 - 12.30

Inaugural lecture

Ángel Carracedo (Santiago de Compostela, Spain)

12.30 - 13.30

Minority liver diseases: An unmet need

Chairpersons:

Rafael Bañares (Madrid, Spain)

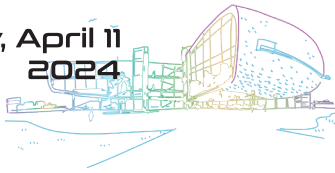

Francisco Jorquera (León, Spain)

☛ Is there a need for specialized units?

Manuel Romero (Sevilla, Spain)

☛ The role of the geneticist

Nerea Paz (Santander, Spain)

13.30 - 14.30

**Non-inherited minority liver diseases:
Primary biliary cholangitis**

Chairpersons:

Conrado Fernández (Madrid, Spain)

José Presa (Vila Real, Portugal)

- Natural history in PBC
Christophe Corpechot (Paris, France)
- Personalized treatment in PBC
Gideon M. Hirschfield (Toronto, Canada)

14.30 - 16.00

LUNCH

16.00 - 18.00

**Non-inherited minority liver diseases:
Hepatitis delta virus and vascular disease of the liver**

Chairpersons:

María Buti (Barcelona, Spain)

Rafael Esteban (Barcelona, Spain)

- Do we know the natural history of delta hepatitis?
José Luis Calleja (Madrid, Spain)
- Therapeutic options in hepatitis delta
Marc Bourliere (Marseille, France)
- Real Life experience in Hepatitis delta treatment
Pietro Lampertico (Milan, Italy)
- Porto-sinusoidal vascular disorder (PSVD)
Virginia Hernández-Gea (Barcelona, Spain)
- Fontan associated liver disease
Luis Téllez (Madrid, Spain)

18.00 - 18.35

CENTRO BOTIN PRESENTATION.

COFFEE BREAK & VISIT ART EXHIBITION

18.35 - 19.35

Wilson's disease

Chairpersons:

Marina Berenguer (Valencia, Spain)

Elba Llop (Madrid, Spain)

● What is the best treatment for Wilson's disease today?

Michael L. Schilsky (New Haven, United States)

● Do real-life registries improve care?

Zoe Mariño (Barcelona, Spain)

19.35 - 20.15

Artificial intelligence vs. clinical expertise. And the winner is?

Chairpersons:

José Luis Calleja (Madrid, Spain)

Javier Crespo (Santander, Spain)

Julio Mayol (Madrid, Spain) **VS** *Clinical experts and audience*

Friday, April 12
2024

INTERNATIONAL
SYMPOSIUM ON *Rare*
LIVER DISEASES

08.30 - 10.30

Other inherited rare liver diseases

Chairpersons:

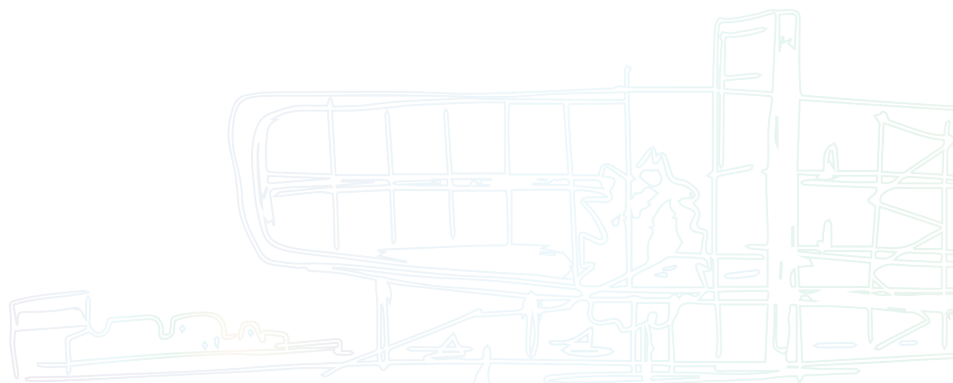

Jesús Bañales (San Sebastián, Spain)

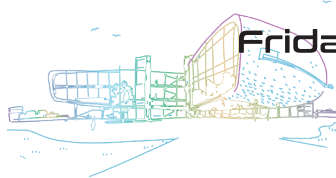

Raúl Andrade (Málaga, Spain)

- Genetics of alpha 1 AT deficiency
Pavel Strnad (Aachen, Germany)
- Progressive familial intrahepatic cholestasis
Richard J. Thompson (London, England)
- New therapeutic options in Polycystic Liver disease
Joost Drenth (Nijmegen, Netherlands)
- Hereditary hemochromatosis pathogenesis
Elena Corradini (Modena, Italy)

10.30 - 11.00

COFFEE BREAK

11.00 - 13.00

Diagnosis of hereditary diseases and beyond

Chairpersons:

Ángela Puente (Santander, Spain)

Agustín Albillos (Madrid Spain)

- Integrate genomic data into clinical practice
Luca Valenti (Milan, Italy)
- How to discover a disease: From the patient's bedside to the laboratory
 - ◀ The clinician's question
Álvaro Díaz (Santander, Spain)
 - ◀ The basic's answer
José Juan García (Salamanca, Spain)
- MASLD genetic risk variants and personalized treatment
Stefano Romeo (Catanzaro, Italy)
- New approaches for the treatment of liver diseases
Mariluz Martínez-Chantar (Derio, Spain)

Friday, April 12
2024

INTERNATIONAL
SYMPOSIUM ON *Rare*
LIVER DISEASES

13.00 - 13.45

The role of population-based cohorts in identifying and delineating rare diseases

Chairpersons:

María Teresa Arias Loste (Santander, Spain)

Marcos López Hoyos (Santander, Spain)

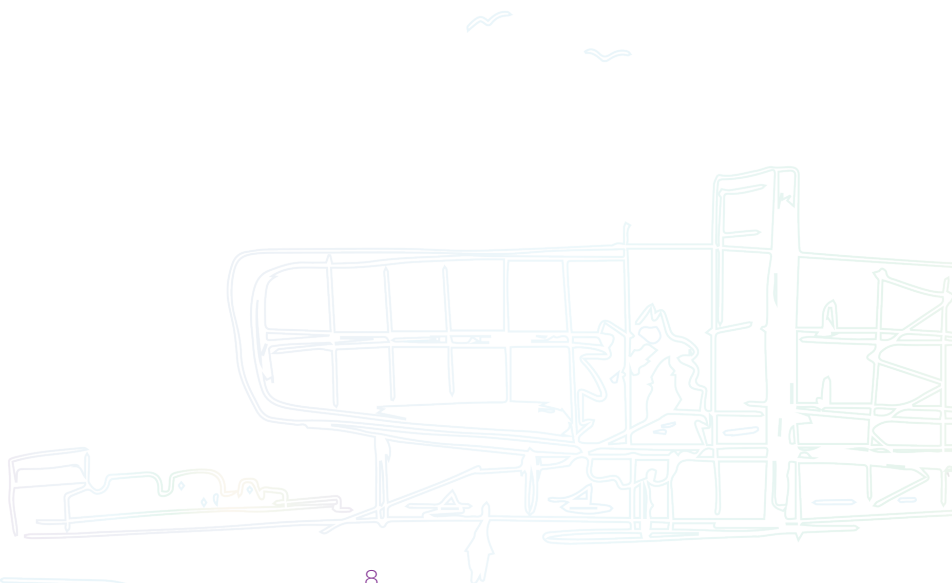

- One million genomes project
André G. Uitterlinden (Rotterdam, Netherlands)
- Cohorte Cantabria
Marcos López Hoyos (Santander, Spain)

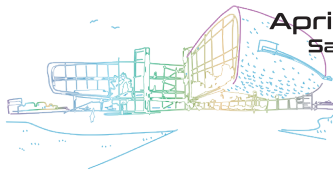

13.45 - 14.00

Concluding remarks

José Luis Calleja (Madrid, Spain)

Javier Crespo (Santander, Spain)

Creating Possible

Durante más de 35 años, en Gilead hemos conseguido avances que parecían imposibles, lo que nos ha permitido transformar la vida de miles de pacientes con enfermedades graves. Somos una compañía biofarmacéutica puntera, con productos en áreas como el VIH, las hepatitis virales, el COVID-19 y la oncología, y que cuenta con una prometedora cartera de medicamentos en investigación.

Nuestro compromiso va más allá. Innovamos con el propósito de eliminar barreras y conseguir que las personas que más lo necesitan puedan tener acceso a los avances en el cuidado de la salud. Trabajamos para conseguir un mundo mejor y más saludable para todos.
